# LOCKJAW RESULTED.

A Prominent West End Citizen AN ASSIGNEE IS APPOINTED Dies In Terrible Convulsions.

HE INJURED HIS FINGER

Causing Blood Poisoning, and Death Was Not Expected.

THE WOUND HAD HEALED UP.

Sad Story of an Accident Which Occurred On the Fourth to Louis Hart of This City--He Leaves a Large Family to

Louis Hart, residing at No. 506 Lincoin avenue, passed from earth Wednesday evening at 5:15 o'clock surrounded by a wife and five small children. It will be remembered by the readers of the News-Democrat that Hart was shot through the forefinger of his left hand, by the accidental discharge of a pistol July 4th, the force of the powder having lacerated that member very severely. The wound became so much better under careful nursing that he assumed his duties as a watch finisher at the Hampden works Monday morning. He worked throughout the day. When he returned to his home after his daily toil, he complained of feeling ill, and said he had very severe pains in his neck and back. He grew rapidly worse. Doctor Kelly was hastily summoned, and Doctor Myers also called in consultation. The result was announced to the family that the patient suffering with lock-jaw. Soon after his jaws became set. He could articulate through his closed teeth-but his words were very incoherent and his sentences long drawn. He made known, however, that he was suffering much pain. During Tuesday he became much worse and Wednesday he became delirious. He could eat nothing. The muscles of his face and neck were terribly distorted, showing clearly the excruciating agony he was in. His delirium did not abate for a moment from Tuesevening until Wednesday when eath released him from his horrible suffering. Hart was 36 years of age. He was born at Freeport, Ills., and came to Canton about nine years ago. He has been employed at the Hampden works ever since. He was an excellent workman and was particularly well liked by his associates, who during hisiliness inquired about him very often. By faith he was a Presbyterian, although not an active member of the church.

### LATEST FROM LIMAVILLE.

He was a member of the Watch Makers

Beneficial association and a member of

the Modern Woodmen, which order will

attend the funeral in a body. A widow and five little children, Arthur, Helen, Clyde, Marine and Elsie, the oldest 7

and the youngest 2 years of age. The funeral service will take place from the

family residence Saturday morning at 10 o'clock. Rev. H. Clay Ferguson will

officiate. The interment will take place

at Westlawn cemetery.

Limaville, July 12. Bryan and Stevenson suit the Democrats here. They are united on the ticket and will no doubt march victory this fall.

Locked Up In Jail.

Albert Malottki was brought before Justice Bowman, Wednesday, on charge of unlawfully cohabiting with Mrs. Martha Dean. The complaint was filed by the husband of the woman, Horace Dean. He says that since last September his wife has been harbored by the defendant and he wants him punished. Malottki was unable to give \$500 bond and he was locked up in jail till Friday at 1 o'clock when he will be given a hearing.

# CANTON CONCERN HAS ASSIGNED.

Princess Plow Company Forced to Go to the Wall.

Said That the Trust Was Too Strong For the Smaller Competitor-Assets and Liabit-Ities.

The Princess Plow works on Tuesday evening gave up the struggle in the busnes world and a deed of assignment was filed at 3 o'clock. Attorney Homer V. Briggle is named as assignee. No accounting has as yet been made of the assets and liabilities. The company owned the shop extending from Cleveland avenue to Court street, on Cedar and a lot of machinery and material. With the real estate the property will probably be worth in the neighborhood of \$30,000. The debts will amount up to about \$80,000.

The stock in the company was principally owned by Charles Cook with a small slice held by Ralph and Ed Cook and some few scattering shares on the outside. One of the heaviest creditors is Mrs. George Cook.

The factory employed about 40 men and made an excellent plow. For some time the company has been in bad circumstances

It is said that the business conditions brought upon the country by the organization of trusts has made it impossible for the concern to longer weather the financial storm and the assignment was the only way out of the trouble. GOING OVER THE BOOKS.

A News-Democrat reporter called at the office of the company Wednesday morning. Secretary and Treasurer Geo. E. Cook was interrogated respecting future developments. He stated that no information was to be made public at the present time concerning the closing of the shop. He said that as to the not state definitely. However, it is possible that the shop may be started running by the assignee, in practically the same manner as other industries have been opened after such proceedings. The books of the company are being pored over and a proper statement is being secured as to the outstanding indebtedness and the amount due the company by outside people.

# the Coroner to Have Him Arrested.

Cyrus B. Fockler called at the News-Democrat after dinner and gave the paper a copy of a letter that he is going to send to Coroner Bushnell, of Richland county. The letter reads: "Canton, O., July 12, 1900.

county, Ohio:

govern these islands, and to repress re-

bellion and disorder in the Philippines. No party creed defined the course you

were to follow. Courage, foresight, comprehension of American interests, both now and in the unchartered fu-

ture, faith in the American people and

in their fitness for great tasks, were then your only guides and counsellors.

resenting every state in the Union, and this great new policy which has made us at once masters of the Antilles and a great eastern power, holding, holding fairly, our possessions on both sides of

The new and strange ever excite fear, and the courage and prescience which accept them always arouse criticism and attack. Yet a great departure and a new policy were never more quickly justified than those undertaken by you. On the possession of the Philippines rests the admirable diplomacy which warned all nations that American trade was not to be shut out from China. It you, sir, under circumstances which is to Manila that we owe the ability to send troops and ships in this time of stress to the defence of our ministers, our missionaries, our consuls and our merchants in China, instead of being compelled to leave our citizens to the casual protection of other powers, as would have been unavoidable had we flung the Philippines away and withdirection that you may take, for the were nominated for the presidency by protection of American lives and propthe united voice of the representatives erty, will receive the hearty support must be fenced off or some contrivance turning. Such unanimity, always re- the American citizen shall be protected markable, is here the more impressive at any cost in all his rights, everywhere and at all times. It is to Manila again, ination to the great office which you to our fleet in the bay and our army on the land, that we shall owe the power, when these scenes of blood in China but the sober approval of conduct and are closed, to exact reparation, to enforce stern justice, and to insist, in the final settlement, upon an open door sponsibilities. With the exception of to all that vast market for our fast growing commerce. Events, moving with terrible rapidity, have been swift witnesses to the wisdom of your action in the east. The Philadelphia convention has adopted your policy both in the Antilles and the Philippines, and has made it their own and that of the Republican party.

Your election, sir, next November, secures to us the continuance of that policy abroad and in our new possessions. To entrust those difficult and vital questions to other hands, at once incompetent and hostile, would be a disaster to us, and a still more unrelieved disaster to our posterity. Your election means not only protection to our industries, but the maintenance of a sound currency and the gold standard, shaken, as they would be by the success of our opconents, the whole fabric of our business confidence and prosperity will fall into ruin. Your defeat would be the signal for the advance of of years of training and reflection, but panic, the depression and hard times. and for the wreck of our foreign policy. tional convention which nominated you Your election and the triumph of the Republican party-which we believe to be as sure as the coming of day-will promised to settle, brought first war make certain the steady protection of our industries, sound money and a vigorous and intelligent foreign in-chief, had to carry it on. You did They will continue those conditions of good government and wise legislation. se essential to the property and wellbeing, which have blessed our country in such abundance during the past four

Thus, announcing to you, sir, your nomination as the Republican candidate for the presidency, we have the sibility of the unchecked war powers of honor also to submit to you the declathe constitution, you were obliged to ration of principles made by the national convention, which we trust will receive your approval. We can assure you of the faithful and earnest support of the Republican party in every state and we beg you to believe that we dis-charge, here today, with feelings of deepest personal gratification, this hon-orable duty imposed upon us by the convention.

# MINE RULES ARE FORMULATED

They Are the First of the Kind Ever Issued.

BY CHEIF MINE INSPECTOR.

They Are Adopted to Prevent as Much as Possible the Loss of Life Through Accidents Caused in Mines.

Columbus, July 12.-A code of rules

governing mining operations in the state has been formulated by Chief Mine Inspector Biddison. The rules are the first of the kind issued by the department and they were adopted to pre vent as much as possible loss of life and limb through accidents caused by negligence in the mines. Mining experts have approved of the rules. Accidents occurred with greater frequen-cy during the last six months than ever before in the history of the department and this alarming record induced the inspector to take precautionary action. new rules will make additional work for the district inspectors and several have made complaints to Mr. Biddison, with the result that he has told them they could either enforce the laws or resign. Copies of the circular given below will be distributed all over the state and Inspector Biddison respectfully solicits the aid of the press in securing the successful operation of the rules. Following is the code: STATE MINING DEPARTMENT,

Columbus, Ohio, July 9, 1900. General Order No. 1.—All operations in mining coal in the state of Ohio, which come under the state law, shall be governed by the following special rules, together with any other rules and regulations that may be stipulated by No. 1 .- Two separate outlets for min-

ers and mine labor must be provided and maintained. Law governing breakthroughs must be strictly complied with. No. 2,-A current of air of sufficient

velocity to render harmless or expel any poisonous or noxious gases at each and every working place must be provided and maintained. No.3.-At any working place where poi-

sonous or inflammable gases are found in dangerous quantities a current of air having a velocity of 300 feet a minute must be provided and maintained.

No. 4.-All breakthroughs or airways must be closed by brattices, trap doors or otherwise except the one nearest the face of the workings. No. 5.-Butt entries must be provided

with check doors or the necessary contrivances to conduct the air to the face of the rooms where more than three parallel rooms are driven the required distance for a breakthrough. throughs in rooms must be opposite each other and the one nearest the working face kept clear of gob or other material that would obstruct the passage of air. Air in butt entries will be measured at the breakthroughs nearest the working face of the rooms on the same. Good judgment must be used in enforcing this rule. Air must be conducted to all working faces of the mine. Rooms parallel to each other and which are to be ventilated by the same current of air must be driven as near even as possible, and in no case shall a room be driven more than twenty yards in advance of a breakthrough for the inleof air uhless special provision has been

made for ventilating same. No. 6 .- In all mines were fire damp is found a suitable and competent person was but the reflection of the deeper drawn from the Orient. Rest assured, must be employed to carefully examine harmony which existed in the hearts sir, that the vigorous measures that you the working places and according to destroyed. This building was standing and minds of the delegates. Without have thus been enabled to take, and law report their condition before the about 20 feet away from the barn, and "Now, I desire to know if this is your faction, without dissent, with profound that all further measures in the same miners or any mine laborer is permitted to enter the same. Openings ways to abandoned workings in mines be used to prevent the entering of same unaware.

No. 7.-Any wells drilled for oll or gas on property from which the coal has been or is being mined must be accurately located on the map and a statement accompanying the same setting forth the nature of the production of the well, or wells, if producers; if abandoned, state present condition.

No. 8.-Ventilating and hoisting machinery must be kept in a sound and healthy condition. Ventilating apparatuses, airways, or air courses and air shafts or air drifts must be so constructed and have a sufficient capacity to ventilate a mine as required by the foregoing rules and regulations.

No. 9 .- It shall be the duty of the mine boss to explain to the miners and mine laborers that breakthroughs near est the face of rooms are airways under the state mining laws, and that the penalty is fine and imprisonment for in any way obstructing a free passage of air through the same.

No. 10 .- So far as possible dust and slack should be removed from the mines to prevent fires caused by spontaneous combustion and dust explosion.

# LIGHTNING

Causes a Serious Conflagration On the Sliker Farm Wednesday.

THE LOSS IS VERY LARGE.

Barn and an Outbuilding Are Destroyed, the House Being Saved.

HALF COVERED BY INSURANCE

The Flames Cast a Spectacle of Unusual Luridness In the Sky-Belleved That the Fire Was at Massil-

A large barn and outbuilding on the farm of Charles Sliker, which is located near the north end of Meyer's lake, was completely destroyed by fire Wed-nesday night. The fire was caused by a stroke of lightning which entered the building, igniting the combustible contents, such as hay and other stuff. The loss will reach several thousand dollars, with only about half the loss covered by insurance. Al. Albright, who is well known in this city, has charge of and conducts the farming for Mr. Sliker. The farmhouse, which stands just south from the buildings burned, was not damaged, although several times during the progress of the fire it was believed that the wind would blow the flames over to the house and also ignite that. As there was no fire apparatus within reach, the two buildings could not be saved.

The Sliker farm is located two and three-fourths miles northwest of this city. It is reached by traveling along the Fulton road and following along to the Whipple road, some distance north of the Casino at Meyer's lake. There are three buildings of any dimensions on the farm, the house, barn and one outbuilding. The stroke of lightning which struck the barn was witnessed about 7:30 o'clock, by the Albright family. In a few minutes flames issued from the barn and in a quarter of an hour the entire building was wreathed in flames. Neighbors ran in from all directions to assist in saving such stock and implements as were possible under the circumstances. They entered the building and saved all of the stock, but some plows and a few farm implements were destroyed in the conflagration which was greedily eating its way toward the outbuilding. The barn was of large proportions; probably one of the largest in the vicinity, and it contained a large quantity of hay and other stuff which had recently been placed there by Albright. After removing such implements as could be secured without incurring accident to those assisting, attention was paid to the outbuilding, which was used as a corn crib, granary, hog pen and chicken coop.

While some of the contents were gotten out of this building, the fire communicated with it so quickly that the men assisting were not enabled to do very much there. A number of chickens were roasted and considerable of the contents of this building were

it was burned to the ground. The reflection of the flames in the sky, at that hour of the night, with occasional streaks of lightning silhouetted against the lurid red, caused one of the grandest spectacles ever witnessed. of that nature, by thousands of residents in this city, who stood upon the streets, even while the rain was falling r drizzling, watching the sky. The belief was apparent at first that a large fire had occurred probably at Massillon, and that the whole town was burning. But as Massillon lies directly west, those who knew of the location refuted the statements of others. Then again some believed that the Casino was being destroyed. Telephone calls during the raging of the storm were numberless, as the citizens seemed in great anxiety as to the location of the fire.

On Tuesday afternoon Mr. Albright hauled to his barn about five tons of hav which he secured at the Frazer farm. Mr. Albright had assisted in the work and that portion was given him by Mr. Frazer for his work. Frazer stated that he could store it in the barn, but Albright said he would haul it home. All this hay was destroyed in the fire.

A number of the neighbors and others who assisted in the removal of a portion. of the contents of the barn, received more or less serious burns, as the fire increased while they were at work. After securing such implements and other articles from the lower portion of the burning barn, as was possible, the attention of the men was turned toward saving the house, if flames should communicate therewith. Mr. Sliker stated to a News-Democrat reporter Wednesday night that his loss would reach several thousand dollars and that the loss was only about half covered by insurance. He said the lames burst out from the upper portion of the barn as soon as the lightning struck the building, igniting the hay and other combustible stuff, and that from the beginning the fire raged with such fury that it was impossible to do anything toward saving the building. The loss to Mr. Albright will be very large.
